## How did your dog get so good?

Obedience is a lifestyle: Your dog should be able to do ALL of these when you are done with training.
It's a pretty easy list but does require practice and consistency. Remember that none of us got our dogs thinking that we wanted to leave them at home. We want dogs we can take WITH us, dogs that we can INCLUDE in our life and our adventures!

Take pictures or videos of each part and send it to me. If you don't know how to do something, ask me - I love teaching and I'd love to give you your graduation certificate!
